

# The Art of Leadership

## Purpose:

As businesses and the working environment evolve, leaders need to adapt their style and be ready to take their teams with them. These sessions look at 3 components that sit at the forefront of the environments we are leading in: **Trust, empathy & empowerment**

## Objectives:

- Identify how to work with each component to develop leadership style & impact
- Outline a personal plan to build an empowered team utilising the 3 components
- Have a picture of how individuals and their teams are currently operating

## Approach:

- ✓ Input on tools, approaches & practical strategies
- ✓ Facilitated and group discussions to share ideas and solutions within the group
- ✓ Q&A to support specific areas of interest

## Programme Structure:

We will work together over **two x 90mins virtual Action Learning Sets** and you are also asked to engage in **two x 60 minute Pre-work Activities**. Activities range from reading articles, watching video clips and conducting work-based activities/self assessment. The work you do up front will set you up in readiness for the sessions.
